

2008 Northwest 5D Point System

Points will be based on the fastest time of the race.

Points will be given to Northwest 5D members down 8 places in each of the 5 Divisions.

If under \$1,000 is added the point system will be 10, 9, 8, 7, 6, 5, 4, and (3) three. One point (1) will be given as a qualifier in the particular Division you ran your time in. A qualifier is deemed a race entered.

If \$1,000 and over is added, the points system will be 15, 14, 13, 12, 11, 10, 9, and (8) eight. One point (1) will be given as a qualifier in the particular Division you ran your time in. A qualifier is deemed a race entered.

For progressive added money races, points will be determined on the actual amount of added money.

The qualifier points page includes no times and people who have entered more than one horse in a race, but have not paid for more than one membership.

Each membership must attend 6 races to qualify to run for the trailers during the Finals. A second membership will require an additional 6 races to be eligible for 2 chances at the trailers, etc. The particular horse you ride is of no consequence in qualifying.

If you have any questions regarding the point system, please contact me.

Thank you,
Rosanne
